Declaration on Substance Bans/Substance Restrictions RoHS

The EU Directive 2011/65/eu lays down provisions for the restriction of the use of hazardous substances in electrical and electronic equipment in order to contribute to the protection of human health and the environment Including the environmentally friendly recycling and disposal of waste electrical and electronic equipment. It regulates the use and placing on the market of dangerous substances in electrical appliances and electronic components.

The ATE Antriebstechnik und Entwicklungs GmbH & Co. KG shall, to the best of our knowledge and current knowledge, ensure that the products delivered to our customers meet the material requirements of the aforementioned regulations, irrespective of whether the delivered products are covered by the ElektroStoffV, based on the regulation 2011/65/eu and its extension 2015/863/eu.

This is a maximum of 0.1% per homogeneous material:

- Lead (Pb)
- Mercury (Hg)
- Hexavalent chromium (Cr VI)
- Polybrominated biphenyl (PBB)
- Polybrominated diphenyl ethers (PentaBDE; OctaBDE; DecaBDE)
- Perfluorooctane sulfate (PFOS)
- Butylbenzylphthalat (BBP)
- Di(2-ethylhexyl)phthalat (DEHP)
- Dibutylphthalat (DBP)
- Diisobutylphthalat (DIBP)

or 0.01 percent by weight of cadmium per homogeneous material.

If individual substances in our products exceed the concentrations listed above, we can invoke an exemption for certain uses and comply with the maximum concentrations listed in the respective exemption.

The above statement applies to the said substances from 21 July 2019. The limitation of DEHP, BBP, DBP and DIBP does not apply to cables or spare parts for repair, reuse, updating of functions or the extension of the performance of electrical and electronic equipment placed on the market before 22 July 2019 electronic.
